SELFLEVEL[®] Access Assembly

Improve driveability while reducing road maintenance, inflow, and infiltration. Available for asphalt and concrete applications.

SELFLEVEL assembly floats with the roadway, keeping the surface smooth during settling and frost heave.

Protecting the structure below, traffic vibration is absorbed by the road surface.

An excellent solution for new or retrofit installations.

Visit r.ejco.com/lunch to request a lunch and learn demo or call 800 626 4653.

Made in the USA

FORTA[®]

KING Shotcrete Solutions include pre-packaged **shotcrete** material, as well as mixing and placement **equipment**, intended for mining, tunneling, concrete construction and concrete rehabilitation projects. KING Shotcrete Solutions supports your complete shotcrete operation.

Featured Brands:

KING Construction Products include pre-packaged **concrete***, **grout** and **repair mortar** for mining, tunneling and concrete rehabilitation projects.

Endurablend Coating System

Endurablend as manufactured by Pavement Surface Coatings LLC, is the most durable and long lasting colored coating system for roadway applications in the market today. Endurablend consists of a specially formulated polymer modified cement blended with natural and engineered fibers, aggregates and pigments. EB can be spray applied to asphalt, concrete and metal surfaces to a thickness of 1/8". EB can be colored, patterned and textured to your needs. Stencils are used to create various patterns and designs. Applications include:

Decorative and Enhanced Crosswalks
Dedicated Bike, Bus and Multi-use lanes
Micro Surfacing Treatment
High Friction Surfacing Treatment
Traffic Calming
Pedestrian Malls
Custom Roadway Logos and Designs
And More..

The logo features the word "Pennoni" in a bold, italicized, dark green sans-serif font. The text is enclosed within a dark green, hand-drawn style oval that loops around the letters, with the top and bottom curves overlapping the text.
